

Quentin T. Smith

Technical Level Designer • Gameplay Programmer

Austin, TX • quentinsmith.gd@gmail.com • slothdev-gd.itch.io • linkedin.com/in/quentin-t-smith

SUMMARY

Technical level designer who builds modular, intuitive tools, systems, and worlds. Designed 15 of 16 levels for Insanitation, an upcoming 4-player party game on Steam, plus the gameplay systems behind them.

PROFESSIONAL EXPERIENCE

If It Works Studio LLC — Round Rock, TX Aug 2024 – Present

Founding Member • Lead Level Designer & Programmer

Insanitation, a 4-player competitive party game (Cats vs. Keepers) for PC/Steam (Unity/C#), built by an 8-person team.

- Designed 15 of the game’s 16 levels: the tutorial, Crazy Cat Lady’s Apartment, Basement, Cat Cafe, Outside, Hotel, and 9 variants. Owned layout, player flow, and pacing from graybox to playable; directed the art team through final polish.
- Engineered a weighted variant selection system for 3 maps with 4 layouts each, using cooldowns and a miss counter that guarantees every variant appears within a set number of loads.
- Rebuilt and extended a controller-aware input prompt system that displays the correct keybinding icons across 4 input types: mouse, keyboard, Xbox, and PlayStation.
- Led 40+ playtests and iterated on level layouts and systems from player feedback.
- Co-founded the studio’s LLC in January 2025.

GAME PROJECTS

Free Rider — Lead Programmer & Level Designer Nov 2023 – Aug 2024

3D third-person free-skating experience • Capstone project

- Led 3 programmers on a 5-person core team, integrating assets and mechanics across a 15-person cross-discipline team.
- Rebuilt player movement from twin-stick to single-stick momentum controls when realistic physics clashed with the relaxed tone.
- Built modular hazard and detection systems with 5 hazards (leaves, rubble, oil, water, sand) affecting movement and status.

Oinkyuza Collection — Level Designer 1 month

Narrative level • Three Little Pigs retold • Solo project

- Designed a narrative level casting the player as the Big Bad Wolf, a loan shark collecting debts from three hog brothers across a cyberpunk city.
- Guided players to the hotel finale with key gates, combat, and NPC conversations that tell the story through the space.

ADDITIONAL EXPERIENCE

Substitute Teacher — Round Rock ISD, Round Rock, TX Dec 2024 – Present

- Taught 6th grade CTE Technology Applications to 75 students across multiple classes as sole instructor for 1 month, adjusting pacing and handling all instruction and grading.
- Designed a weekly incentive system to boost student engagement and behavior.

Customer Service — H-E-B, Freddy’s Frozen Custard & Steakburgers, Tumble 22 2020 – 2024

- Served high-volume customers on teams of 10+ across 3 employers over 4 years.
